Dear Customer,

We are pleased to introduce you with our latest vegetable seed catalogue which is based on our continuous hard work over the past decade.

It includes our outstanding varieties that are market specific, catering the needs of varied regions, seasons and cropping patterns. We are sure that this catalogue will help you in choosing the varieties according to your requirements.

Hope you enjoy a successful growing year ahead with Weldon Seeds.

Truly yours,
Devi Ram Sharma

Weldon Seeds Pvt. Ltd. was established in 2018, but we own with us the legacy of Weldon Seeds and Farms since 2014. Gradually and steadily Weldon Seeds Pvt. Ltd. has become a landmark in the field of agribusiness with quality and reliability as its key point.

We have embarked ourselves in Research, Production, Processing, Marketing and International trade of seeds. Our prime area of concern is vegetable seeds and with integrated efforts we have made a significant achievements in the vegetable market with our better varieties.

Weldon Seeds Pvt. Ltd. recognizes the importance of breeding in the evolution and have successfully utilized the same. We have research facilities at important agro climatic regions of the country so as to breed varieties suiting the wide types of climate and soils. A team of highly dedicated staff placed at these units is involved in Breeding, Evaluation, Production of Foundation and Stock seeds for commercial seed production. Our excellent marketing network manages to spread our varieties in every corner of the country.

With right kind of approach, Weldon Seeds Pvt. Ltd. have embedded a large range of varieties in it's profile. Our products seek high choice not only from India even from foreign terrain. Weldon Seeds Pvt. Ltd. is still taking its best efforts to update its product profile according to the varying market demands and assures its consumers with the quality that reflects in crops.

Our Service aim is to make poor farmers can afford to grow quality seeds and become rich. Seeds should serve agriculture and promote the local agriculture development in the most extent.

People: Our Most Important Asset

Human resource is the most valuable asset of our company. We care to nurture the careers the personnel while depending on their skills and potential. Our goal is to ensure that the employees have opportunities to enrich, grow, prosper and succeed.

Commitment to Quality

We focus on pursuing highest qualities for our market centric products, services and operations to attain the maximum levels of customer satisfaction and simultaneously building social values.
